Sizes 465; 500; 530; 550; 580

PINARELLO NYTRO
FAZUA EVATION SYSTEM

Fazua Evation system (with 250Wh battery pack):

Max nominal Power: 250W

Max Power: 400W

Max Torque: 60Nm

Battery energy: 252 Wh

Weight: 4,7 Kg

Max Speed with assistance: 25 Km/h

Drive pack:

High Power density brushless DC motor

Power Board highly compact with USB connection

Exclusive Planetary Gear

Motion and electronic interface to transfer the power to the BB.

Battery:

Battery Energy: 252 Wh

Rated Voltage: 36 V

Weight: 1,4 Kg

Number of recharges: 500 (to 100%), then 60% battery capacity is assured

Time to recharge 0-100%: 3-4hr

Time to recharge 0-80%: 2,5hr

Duration: 1400m uphill in max. support level.

Bottom bracket:

Max Torque: 60Nm

Weight: 1,3 kg
